SUMMARY

Applied Bachelor's graduate (S.Tr.Log., equivalent to S1) in E-Commerce Logistics with a GPA of 3.81/4.00 and hands-on experience developing and maintaining web applications using Laravel, PHP, and MySQL. Skilled in MVC architecture, OOP, REST API development and validation, Git version control, and database design. Experienced in gathering user requirements, translating them into Software Requirements Specification (SRS) and functional system design, and communicating effectively with technical and non-technical stakeholders. Able to debug, optimize, and independently deliver full-stack Laravel applications from planning through deployment, both individually and in a team.

PROFESSIONAL EXPERIENCE

PT Pristine Prima Lestari - Tangerang Regency, Indonesia

IT Intern (March - July 2025)

- Independently developed and maintained the Pazar Brand & Company Website and online recruitment portal using Laravel, PHP, and MySQL.
- Gathered requirements from internal departments and translated business and operational needs into functional system features.
- Designed backend functionality and database structures using Laravel MVC and Object-Oriented Programming principles.
- Managed the web application development lifecycle from requirements analysis and system design through development, testing, deployment coordination, maintenance, and feature enhancement.
- Performed debugging and troubleshooting based on user feedback and operational requirements.
- Provided basic IT support by troubleshooting office hardware and connectivity issues, including resolving a PC-to-printer connection problem.

PT Global Loyalty Indonesia - Tangerang, Indonesia

Product Operation Intern – Quality Assurance (August 2025 – January 2026)

- Executed manual and functional testing for new features of the Alfagift mobile application based on business and functional requirements.
- Designed test scenarios and test cases and identified, documented, and tracked defects using Jira.
- Validated REST APIs using Postman and verified application data using DBeaver, MongoDB, and Redis.
- Prepared user guides and operational documentation while collaborating with developers and product teams to improve product quality.

PT Samanasoft Inovasi Persada - Tangerang Regency, Indonesia

Web Development Part-time (June - July 2024)

- Developed and enhanced website features according to client requirements.
- Collaborated with development teams throughout feature implementation.
- Produced tutorial materials and documentation to improve user understanding.

EDUCATION

Multimedia Nusantara Polytechnic - Tangerang, Indonesia

Bachelor of Applied Science (S.Tr.Log.) in E-Commerce Logistics 2022–2026

- GPA: 3.81/4.0
- Scholarship recipient
- Declared **Competent in Inventory Management (Pengelolaan Persediaan)** through a competency assessment completed as part of the Applied Bachelor's graduation requirements.

SELECTED PROJECTS

Project Manager & Programmer - Rese Corner Website

- Led project planning and coordinated communication among development team members to maintain alignment between project objectives and technical implementation.
- Developed backend functionality using PHP and designed database structures using MySQL to support website features and business requirements.
- Supported frontend implementation and integrated frontend components with backend functionality.
- Monitored project progress, coordinated task completion, and ensured project milestones and deliverables were completed according to schedule.
- Collaborated with team members to identify technical issues and support application improvements.

Full-stack Developer - Pazar Brand & Company Website

- Independently developed a responsive company website using **Laravel, PHP, and MySQL** from initial planning through deployment.
- Gathered internal user requirements and translated business and operational needs into functional website features.
- Designed and implemented backend functionality and database structures using Laravel MVC architecture and OOP principles.
- Performed testing, debugging, and feature improvements based on user feedback and operational requirements.
- Delivered a functional digital platform to support the company's online presence and business operations.

- **Requirements Analysis & Solution Implementation:** Able to identify business and operational needs and translate user requirements into functional system features.
- **Web & Backend Development:** Experienced in developing and maintaining PHP- and Laravel-based web applications, designing databases, implementing backend functionality, and supporting application deployment and maintenance.
- **Software Quality Assurance & Problem Solving:** Experienced in software testing, REST API validation, defect identification, debugging, and troubleshooting application issues.
- **Communication, Documentation & Project Coordination:** Able to collaborate with technical and non-technical stakeholders, prepare user and operational documentation, coordinate project activities, and support practical solutions.

TECHNICAL SKILLS

- **Programming Languages:** PHP, Python, C#, JavaScript
- **Web Development:** Laravel, ReactJS, jQuery, Node.js, Next.js, HTML, CSS
- **Databases:** MySQL, MariaDB, MongoDB, PostgreSQL, Redis
- **Backend & Software Development:** Laravel MVC Architecture, Object-Oriented Programming (OOP), REST API, Requirements Analysis, Database Design, SDLC, Debugging, Troubleshooting, Application Maintenance
- **API & Quality Assurance:** Postman, REST API Validation, Manual Testing, Functional Testing, Test Scenario Development, Test Case Development, Defect Identification, Defect Documentation, Jira
- **Requirements & Documentation:** User Requirements Analysis, Functional Documentation, Familiarity with Software Requirements Specification (SRS)
- **Version Control & Development Tools:** Git, GitHub, Visual Studio Code, DBeaver
- **Data Analysis:** Google Colab, R Studio, Tableau, Power BI
- **Design & Multimedia:** Figma, Canva, OBS Studio, vMix
- **Enterprise & Office Tools:** Odoo, Microsoft Excel, Microsoft Word, Microsoft PowerPoint
- **Additional Tools & Technologies:** Linux, Google Analytics

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

E-Commerce Logistics Student Association

Treasurer (January 2023–June 2024)

- Managed organizational budgeting, financial administration, fund allocation, and transparent financial reporting.
- Coordinated financial planning to support organizational programs and activities.
- Maintained financial accountability and supported the organization's operational needs.

Managed Multiple Concurrent Leadership and Operational Responsibilities - 2024

- Simultaneously held executive committee roles in three major university events: **ECLIVAL 2024 in Conjunction with MNP Fest, ANAGATA 2024, and INAUGURASI 2024**.
- Managed primary responsibilities in finance, administration, Front of House operations, and multimedia while actively supporting other divisions when required.
- Balanced these responsibilities alongside active academic commitments, the Treasurer role in the E-Commerce Logistics Student Association, involvement in Project-Based Learning, competency assessment activities, part-time work, and support for the family retail business.
- Strengthened prioritization, time management, cross-functional coordination, adaptability, and hands-on leadership through managing multiple responsibilities with overlapping timelines.

Additional Committee Roles

- Event Division in ANAGATA 2023 (Jan - Aug 2023)
- Equipment & Logistics Division in Outbound WMK FB UMN 2024 (Nov 2024)
- MNP Campus Visit Committee 2023 (Jan, Jun & Aug 2023)

SELECTED TRAINING & CERTIFICATIONS

- Samsung Innovation Campus Batch 5 - 2023/2024
- DQLab Data Analysis and Visualization
- Disaster Preparedness and Post-Disaster Resilience - DQLab
